

ClickSMS offers Two Way Messaging in the United States. This implemented through the use of five (5) digit Shortcodes that can be setup up for Standard Rate or Mobile Originated (MO) Premium Rate.

- MO Premium Rate messaging is when a mobile user is billed at a premium (above the standard rate) every time they send a message to a specific Shortcode.
- Standard Rate Messaging is when a mobile user is charged for a standard message.

Nine Network Operators are supported in the US, but only six (6) support Premium Rate.

Operator	Premium Rate Support
Dobson Cellular	Yes
Cingular Wireless(AT&T)	Yes
Leap Wireless	Yes
Nextel	No
Sprint PCS	Yes
T-Mobile	Yes
US Cellular	No
Verizon Wireless	Yes
Virgin Mobile	No

Step 1: Register

First you need to apply for Premium Rated Messaging.

- Fill out the application form ([PDF Document](#)) and e-mail it to sales@clickSMS.info

Step 3: Make Payment

ClickSMSatell will contact you within two (2) working days. If your application is provisionally accepted we will request payment. The amount will be dependant on number type chosen. Payment may be made by wire transfer, deposit or by credit card.

- Log into ClickSMS Central at www.clickSMS.info.
- Choose "Purchase" link from the left menu. Then select "Buy SMS Credits" link.
- Enter the required amount. Choose your payment method and click on 'Go'.
- Follow the instructions presented to you.
- E-mail accounts@clickSMS.info with your payment details. You can also fax your proof of payment to +44 7005 805 244.

Step 3: Wait for allocation of Number/ Keyword

Once we have successfully received your payment, we will contact you within five (5) working days to inform you of when your Shortcode will be allocated to you. If you have applied for a 'Selected Shortcode', and that particular Shortcode is already in use, we may contact you earlier to choose an alternative Shortcode.

Step 4: Integrate with Application

Once your number has been assigned to you, we need to register this number with the various US Mobile Networks to enable it to become active. This process may take between four to eight weeks. In the interim you may integrate your chosen ClickSMS API into your system. For more information, please download the US Shortcode Specification document.

Step 5: Configure your Number/ Keyword (if required)

Once your number is activated you can configure it online.

- Log into ClickSMS Central at www.clickSMS.info.
- Choose "Product Control" from the left menu and then "Two-Way Messaging". Here you can configure where your inbound messages will be sent, and any reply message you may require, may also be set.

Step 6: Go Live

- Reporting tools within ClickSMS Central allow you to monitor your number and view any inbound messages received.
- Revenues for Premium Rate Shortcode will be paid to you around 90 days or earlier. This is dependant on when the operator pays ClickSMS.
