

1 OVERVIEW

In order to send messages to mobile handset in the US you are required to have a dedicated Shortcode. These Shortcodes work with the following Network Operators and enable Two-Way messaging.

- Dobson Cellular
- Cingular Wireless (AT&T)
- Leap Wireless
- Nextel
- Sprint PCS
- T-Mobile
- US Cellular
- Verizon Wireless
- Virgin Mobile

2 AVAILABLE SHORTCODES

Only dedicated Shortcodes are available in the US. You may either choose to have a Shortcode number randomly assigned to you, or you may choose a specific Shortcode number if available.

These are known as:

- **Random:** A random Shortcode assigned to you; e.g. 76432
- **Selected:** A specific Shortcode requested by you (if available); e.g. 33333

3 PRICING

ClickSMS charges a setup fee and a monthly rental fee. A small switching fee is charged for all inbound (MO) messages that you receive. Normal fees (prices are available on our website at <http://www.clickSMS.info/en/pricing.php>) are charged for outbound (MT) messaging.

Please refer to the table below for pricing.

Shortcode Type	Once-off Setup Fee	Monthly Rental	Switching fee per inbound Message
Random	€700	€700	1/3 of a credit
Selected	€700	€1100	

- All Shortcodes in the USA are obtained through a central body. This body charges a monthly rental fee, which is included in the above pricing.
- If you have already obtained your own Shortcode, then you may qualify for a monthly discount of €375 for a *Random* Shortcode, or €750 for a *Selected* Shortcode.
- These prices exclude VAT and are per allocated number.
- Rental is paid 3 months in advance.
- Rental is back-dated to the date of application and NOT the date on which the service commences.
- Setup is paid in advance.
